New Jersey PACE — Game-Changing
Clean Energy Financing for New Jersey
Commercial & Industrial Property Owners

New Clean Energy Legislation

In 2012, New Jersey passed legislation (P.L. 2011, Ch. 187) enabling Property Assessed Clean Energy or “PACE”, a game-changing financing model for energy retrofits and renewable energy systems for commercial, industrial, and nonprofit buildings. Up to 100% financing is made available for approved projects, and repaid according to the terms of a Special Clean Energy Assessment registered with the municipality. PACE financing:

1. Saves property owners money on their energy bills and improves property value
2. Creates jobs and economic development
3. Conserves energy and reduces carbon pollution

Beneficiaries of PACE include:

- Commercial & Industrial building owners
- Energy services contractors
- Building and equipment companies
- Solar & other renewables companies
- Banks and private market investors
- Municipalities and communities
- The public at large

Your Support is Needed

New Jersey PACE (NJPACE), an independent 501c3 NJ nonprofit, is providing a state-wide, open market and open-platform PACE program in NJ. We’re looking for:

- financial sponsorships
- in kind services
- collaboration in promoting PACE with energy service companies and property owners

Benefits to Your Company

- Your logo will be in New Jersey PACE print, web and presentation media
- Customers will see your brand as they consider PACE-funded projects
- Your company will be acknowledged for supporting clean energy and local jobs as New Jersey PACE educates business, professional, and governmental associations at conferences and events.
- Your company will be visible at ribbon cuttings with business leaders, professionals and public officials (NJ Legislators, Freeholders, and local Mayors).
- More benefits on the following page.

The New Jersey PACE Program

New Jersey PACE (NJPACE) is a program of the Center for Regenerative Community Solutions (CRCS), a 501c3 NJ nonprofit that educates residents, professionals, businesses, local government and financing sources to plan and implement regenerative ecological, economic and social programs for long term resiliency. Through the New Jersey PACE program, we are helping constituents understand and, as appropriate, take advantage of PACE legislation.

New Jersey PACE (NJPACE) provides administrative services to local municipalities, reviewing technical and financial data on each project, and assisting property owners, contractors, and lenders to secure and manage PACE assessments.
NJPACE helps businesses, contractors, communities, lenders and the public by:

- Promoting the purchase/installation of clean energy systems for commercial and industrial properties
- Educating professionals, business leaders and associations to introduce their clients and members to PACE
- Engaging municipal and county officials to opt-in and help spread the program
- Enrolling banks and private investors to provide the funding
- Scaling up to meet the anticipated demand, so projects are processed efficiently and effectively
- Increasing and accelerating the adoption of energy conservation and renewables to reduce carbon emissions

Your company and brand benefits by being a Founding Sponsor.
